The majority of countries have adopted national policies around maternal and perinatal death surveillance and response. However, recent assessments have indicated poor quality of implementation. The MDSR Technical Working Group (TWG), led by WHO since 2013, was re-launched in November 2017 as the MPDSR TWG to provide global guidance, develop tools, and facilitate country level coordination of MPDSR, coordinating with other monitoring platforms and initiatives. During the November 2017 meeting, the TWG developed a workplan and priority activities. One of these activities was to develop implementation tools to improve implementation of maternal and perinatal death surveillance and response, including training materials. These tools provide a roadmap for conducting MPDSR in clinical and policy settings. This process has the potential to lead to real change for health systems, communities and nations.

Influencing Virtual Teams

No idea what you're doing? No problem. Good managers are made, not born. Top tech executive Julie Zhuo remembers the moment when she was asked to lead a team. She felt like she'd won the golden ticket, until reality came crashing in. She was just 25 and had barely any experience being

managed, let alone managing others. Her co-workers became her employees overnight, and she faced a series of anxiety-inducing firsts, including agonising over whether to hire an interviewee; seeking the respect of reports who were cleverer than her; and having to fire someone she liked. Like most first-time managers, she wasn't given any formal training, and had no resources to turn to for help. It took her years to find her way, but now she's offering you the short-cut to success. This is the book she wishes she had on day one. Here, she offers practical, accessible advice like: · Don't hide thorny problems from your own manager; you're better off seeking help quickly and honestly · Before you fire someone for failure to collaborate, figure out if the problem is temperamental or just a lack of training or coaching · Don't offer critical feedback in a 'compliment sandwich' – there's a better way! Whether you're new to the job, a veteran leader, or looking to be promoted, this is the handbook you need to be the kind of manager you've always wanted.

Virtual Training Tools and Templates

In her #1 NYT bestsellers, Brené Brown taught us what it means to dare greatly, rise strong and brave the wilderness. Now, based on new research conducted with leaders, change makers and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Leadership is not about titles, status and power over people. Leaders are people who hold themselves accountable for recognising the potential in people and ideas, and developing that potential. This is a book for everyone who is ready to choose courage over comfort, make a difference and lead. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it and work to align authority and accountability. We don't avoid difficult conversations and situations; we lean into the vulnerability that's necessary to do good work. But daring leadership in a culture that's defined by scarcity, fear and uncertainty requires building courage skills, which are uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the same time we're scrambling to figure out what we have to offer that machines can't do better and faster. What can we do better? Empathy, connection and courage to start. Brené Brown spent the past two decades researching the emotions

that give meaning to our lives. Over the past seven years, she found that leaders in organisations ranging from small entrepreneurial start-ups and family-owned businesses to non-profits, civic organisations and Fortune 50 companies, are asking the same questions: How do you cultivate braver, more daring leaders? And, how do you embed the value of courage in your culture? *Dare to Lead* answers these questions and gives us actionable strategies and real examples from her new research-based, courage-building programme. Brené writes, 'One of the most important findings of my career is that courage can be taught, developed and measured. Courage is a collection of four skill sets supported by twenty-eight behaviours. All it requires is a commitment to doing bold work, having tough conversations and showing up with our whole hearts. Easy? No. Choosing courage over comfort is not easy. Worth it? Always. We want to be brave with our lives and work. It's why we're here.'

Meeting Wise

This book, by two editors of *Data Wise: A Step-by-Step Guide to Using Assessment Results to Improve Teaching and Learning*, attempts to bring about a fundamental shift in how educators think about the meetings we attend. They make the case that these gatherings are potentially the most important venue where adult and organizational learning can take place in schools, and that making more effective use of this time is the key to increasing student achievement. In *Meeting Wise*, the authors show why meeting planning is a high-leverage strategy for changing how people work together in the service of school improvement. To this end, they have

created a meeting-planning “checklist” to develop a common language for discussing and improving the quality of meetings. In addition, they provide guidelines for readers on “wise facilitating” and “wise participating,” and also include “top tips” and common dilemmas. Simple, succinct, and practical, Meeting Wise is designed to be read and applied at every level of the educational enterprise: district leadership meetings with central office staff, charter-school management summits, principals’ meetings with teachers, professional development sessions, teacher-team meetings, and even teachers’ meetings with parents and students.

Mastering the Art of the Sample Committee Minutes Template: A Comprehensive Guide

Effective record-keeping is the foundation of any successful group. Minutes, those detailed accounts of meetings, serve as the official record, providing a ordered account of discussions, decisions, and actions taken. For committees, these minutes are particularly crucial, providing accountability and ensuring all members are updated on progress. A well-structured sample committee minutes template is, therefore, an invaluable tool for maintaining effective and efficient committee operations. This article delves into the features of such a template, providing practical advice and best practices to help you create your own.

The ultimate sample committee minutes template ought to comprise several key sections:

1. Heading: This section should clearly state the name of the committee, the date and hour of the meeting, the location (physical or virtual), and the names of those present. It's also beneficial to note who was unavailable, and whether any observers were present. For example:

> **Committee Name:** Finance Committee

>

> **Date:** October 26, 2023

>

> **Time:** 2:00 PM - 3:30 PM

>

> **Location:** Conference Room A, Main Office

>

> **Present:** John Smith (Chair), Jane Doe, Robert Jones, Sarah Lee

>

> **Absent:** David Brown

>

> **Guests:** None

2. Approval of Previous Minutes: The template should include a section to record the approval (or amendment) of the previous meeting's minutes. This validates the accuracy of the record and ensures coherence in the committee's work. This section often involves a simple motion and second, followed by a record of the vote.

3. Matters Arising from Previous Minutes: This section is dedicated to addressing any outstanding items or actions that were identified in the previous minutes. It enables the committee to track progress and hold individuals accountable for their assigned tasks. This section could include updates on the status of projects, discussion of potential obstacles, and decisions on next steps.

4. Reports: Many committees receive reports from subcommittees, individual members, or external stakeholders. This section provides a designated space to summarize these reports, highlighting key findings and

recommendations. It's crucial to retain a concise yet informative summary, avoiding unnecessary detail.

5. New Business: This is where the bulk of the meeting's agenda typically resides. Each item should be recorded with a brief summary of the discussion, resolutions made, and any assigned actions with responsible individuals and deadlines. Using task items with clear owners and due dates enhances the accountability and helps track progress effectively. An example could be: "Motion to approve the new marketing budget was made by Jane Doe, seconded by Robert Jones, and passed unanimously."

6. Adjournment: This section simply records the hour at which the meeting was adjourned. This concludes the official record of the meeting.

7. Appendix (Optional): This section can be used to include supporting documents, such as detailed reports, presentations, or other relevant files.

Practical Benefits and Implementation Strategies:

Using a consistent template enhances the effectiveness of your committee's operations by ensuring a standardized format and structure. It fosters clear communication and accountability, minimizing the risk of misunderstandings and disagreements. The template functions as a training tool for new members, facilitating their onboarding process. Regular use builds institutional memory, ensuring continuity in decision-making and projects across committee memberships. Implementing such a template is straightforward: simply adopt a template that suits your committee's needs, customize it to reflect your specific requirements, and ensure all members are trained on its proper use.

Conclusion:

A well-designed model committee minutes template is a fundamental tool for running effective committee meetings. It ensures correct record-keeping, promotes clarity, and facilitates efficient decision-making. By incorporating the key components outlined above, committees can create a robust system for documenting their work, enhancing communication, and ultimately achieving their goals.

Frequently Asked Questions (FAQs):

Q1: Do I need to record every detail of every discussion?

A1: No, focus on key decisions, actions, and assignments. Minutes are a summary, not a transcript.

Q2: Who is responsible for writing the minutes?

A2: Often a designated secretary or member takes on this responsibility.

Q3: What should I do if a mistake is found in the minutes after they are approved?

A3: A minor correction can often be noted in the subsequent minutes. Significant errors may require a formal amendment.

Q4: How should I store committee minutes?

A4: Maintain both physical and digital copies for easy access and archival purposes. Consider using a secure, cloud-based storage system.

Q5: How long should committee minutes be kept?

A5: This varies by organization and legal requirements, but generally, a significant period (several years) is recommended.

The NASA-ESA Mars Sample Return is a proposed Flagship-class Mars sample return (MSR) mission to collect Martian rock and soil samples in 43 small, cylindrical, pencil-sized, titanium tubes and return them to Earth around 2033.

The NASA–ESA plan, approved in September 2022, is to return samples using three missions: a sample collection mission (Perseverance), a sample retrieval mission (Sample Retrieval Lander + Mars Ascent Vehicle + Sample Transfer Arm + 2 Ingenuity-class helicopters), and a return mission (Earth Return Orbiter). The mission hopes to resolve the question of whether Mars once harbored life.
